

Grok in Your Tesla: What It Can Do Now

Free guide to video #2 • Grok's new hands-free helpers, what your car needs, and how to set it up.

WHAT THIS GUIDE COVERS

What Grok can now do in your car • how to set up Connectors • what Grok Bot is and what it costs • what your Tesla needs • how to check your car in 10 seconds.

1 What's new

On **September 22, 2026**, Tesla said Grok in your car can now:

- manage your **inbox**
- clean up your **calendar**
- talk through your **files and tasks**

All hands-free, while you drive.

2 Set up Connectors (phone)

- ☐ Open the **Grok app** on your phone.
- ☐ Tap **+**, then **Connectors**.
- ☐ Tap **Add Connector** and sign in to the account (email, calendar, files).
- ☐ Sign in to Grok in your car with the same Grok account.

3 Grok Bot: errands by voice

Grok Bot can run errands for you. One owner posted that he **ordered Starbucks by voice** while FSD (Supervised) drove.

Cost: Grok Bot needs a **SuperGrok** subscription (any SuperGrok plan, per Tesla's page on 10/10).

4 What your Tesla needs

Basic Grok (no subscription):

- an **AMD** computer chip
- software **2025.26** or newer
- **Premium Connectivity** or Wi-Fi

Connectors and Grok Bot also need software **2026.26** or newer and a Grok sign-in.

5 Check your car in 10 seconds

Tap **Controls** > **Software** > **Additional Vehicle Information**. Look for **AMD** next to the computer, and your software version at the top of the Software screen.

6 Updated since the video

- The video said Grok Bot was only on the top **SuperGrok Heavy** plan. Tesla's page now says **any SuperGrok plan** works.
- Connectors and Grok Bot need newer software (**2026.26+**) than basic Grok.
- Tesla's Grok page no longer calls Grok in the car "beta." FSD is still **Supervised**, so you still watch the road.

Checked: Saturday, October 10, 2026, on Tesla's Grok support page (tesla.com/support/grok). Grok changes fast. Check your own car and app.
